2	Subsymbolic properties															
5	Differentiability															
6	Scale-invariance															
7	Weak smoothness															
8	Shadow-lifting															
16	Single-passing															
17	Vanishing gradients															
18	Exploding gradients															
1	Propositional Formalization															
22	Syntax															
31	Numerical semantics															
24	Calculus															
25	Propositional numerical soundness
